CHINA'S FLEET SUPERIOR.

Splendid Tactics of the Japanese in Face of Greater Numbers--The Victory Secures the Sea and Opens China to Invasion.

London, Sept. 20.—The Japanese legation here received a dispatch from Tokio this morning stating that the Japanese fleet at 1 o'clock in the afternoon of Sept. 16, met 11 Chinese warships and six torpedo boats 35 miles northeast of Hai-Yang-Tao, and that in the ensuing battle four of the Chinese ships were sunk and one was burned.

It was at first assumed that this dispatch gave the result of another battle than the one fought off the mouth of the Yulu river, but a later dispatch from Tokio to The Central News, though differing somewhat in respect of details, makes it clear that it is the Yulu engagement that is treated of

According to the Central News advices at noon on Sept. 17, instead of Sept. 16, as stated in a dispatch to the Japanese legation, nine Japanese warships convoying two armed transports sighted 12 Chinese warships and six gunboats. The fighting began by an attack upon three of the Chinese warships, which were sunk. As the fighting progressed another Chinese warship was set on fire and destroyed, but the remaining eight, only one of which was uninjured, together with the six gunboats, succeeded in getting away. The Japanese warship, Matsushima and Hi Yei, were slightly damaged and one of the armed transports was seriously crippled but none of the Japanese ships were lost. The Japanese loss was 20 men known to have been killed and 46 wounded.

The correspondent of The Central News at Tien Tsi telegraphs further details of the naval battle off the mouth of the Yulu river as follows: The work of transferring the troops and stores from the Chinese transports to the shore was proceeding rapidly when the Japanese fleet was sighted. Admiral Ting signalled to his fleet to weigh anchor and form in line of battle. In obedience to this order, the fleet was formed in a single line with the exception of the cruisers Kwang-Kai and Kwang-Ting and four torpedo boats, which were formed in a second line at the mouth of the river. The Japanese fleet advanced at full speed while the Chinese columns were forming in line until they came within range, when the warships formed in line of battle, nine of them in the first column and three gunboats and five torpedo boats in the second column. The firing at the outset of the engagement was of an indifferent order, but the Japanese were steaming gradually closer to the Chinese ships and their gunners were improving their aim by practice.

The Chinese barbette ship Ting Yuen was the first to suffer any serious injury, a Japanese shell bursting in her battery.

A furious cannonade was kept up for an hour and a half, when the Japanese ship Saiko was rendered helpless, and, according to the assertion of a Chinese officer, sank soon afterwoord. Two of the big guns of the battle ship Chen Yuen were disabled, but she continued to use her smaller guns. The vessels of both fleets worked very easily under steam, and the Japanese were constantly maneuvering but the Chinese held their original position

Suddenly two Japanese cruisers, believed to have been the Akitsushima and the Yoshino, endeavored to break the line. They were followed by three torpedo boats. As the Japanese ships advanced at full speed the Chinese ship Ching Yuen and Chao Yung backed full speed astern to avoid disaster. The Japanese torpedo boats fired, but their projectiles were stopped by nets. The guns of the other Chinese ships were quickly trained on the two Japanese cruisers and they retired after a short time almost helpless. The Chinese declare they were sunk.

The Ching Yuen was several times pierced by shells. The Chao Yung ran ashore while retreating, and became a target for the Japanese guns until she was set on fire. The Ching Yuen was in a plight. A shell burst through her decks and she slowly foundered while flames burst from all parts of her. The Japanese Yoka withdrew from the first into the second column

The Chinese topedo boats vainly attempted to put the Japanese on the defensive, but the Japanese remained the aggressors throughout, although two or three attempts to break the Chinese line were repulsed. The cruiser Yang Wei went ashore stern foremost, and met a fate similar to that of the Chao Yung.

After the first three hours of the engagement, the firing was intermittent. The captain of the cruiser Chih Yuen fought bravely when his ship was little better than a wallowing wreck, until the cruiser was sunk by a torpedo and her crew engulfed.

The scene at this point is described as appalling. Many guns on both sides were disabled, the battered ships rolling heavily and their steam pumps were kept constantly at work to keep them afloat. During the last hour of the battle some of the Chinese ships ran out of ammunition, and some of the Japanese ships threatened to founder.

At dusk the Japanese ships moved slowly southward in double lines It seems impossible that the surviving Chinese ships can be repaired before winter.

A GREAT VICTORY.

Japan's Position in the Gulf of Pechili Made Secure.

Washington, Sept. 20 Official confirmation is obtained here of the United Press report that four Chinese vessels were sunk and one burned, in the recent naval battle. The statement in the first account of the battle that three Japanese vessels had gone down was doubted by the officials of the Japanese legation because no vessels in the Mikado's navy had names such as those given. One of the ships was called the Saiko, and it was thought that this might mean the Japanese vessel Sayko, which had been used as a transport between Shanghai and Yokohama

Naturally elated over the success of the Japanese fleet the officials of the legation predict the ultimate success of the Mikado's forces, and it will be easily seen that the claim is not born merely of enthusiastic belief in the superiority of the Japanese. China has lost five of her best war ships They were undoubtedly the best she had and as good naval vessels are not built in a day, the chances for augmenting her naval force are very small indeed

It is safe to assert that by the great victory off Hai-Yang-Tao Japan has obtained full possession of the Gulf of Pechili which is the key to an invasion of the Flowery Kingdom. A strong Japanese fleet stationed there stands little chance of being routed, and Japanese troops can be landed in China and Corea without serious danger. With the China northern fleet crippled and the southern fleet of little use, owing to the anchient character of its vessels, the Chinese are not likely to make any advances on the strong forces of the enemy in the Gulf of Pechili. These are the views of the legation officials, but it will be seen that they are based on actual conditions

ANOTHER ACCOUNT.

A Slightly Different Story Received at the Japanese Legation.

Washington, Sept. 20,—Lieutenant Miyaoka, naval attache of the Japanese legation, to-night received the following telegrams from the Japanese headquarters at Hiroschima: 'Great victory of our fleet about 9 30 p. m. on the 17th September Our fleet composed of 10 ships met with Chinese fleet of 12 ships and six torpedo boats 45 miles northeast of Kayoto The enemy fired first and our fleet won the great victory. Three Chinese ships of war were sunk and one burned down Our fleet is safe"

This dispatch is somewhat confusing, for although it confirms the Central News advices from Tokio in nearly all the essential details, it does not confirm the official report received at the Japanese legation in London, and differs from both dispatches in the time at which the battle took place. There is no doubt, however, that all the dispatches refer to the battle at the month of the Yalu river, and the information contained makes certain that the Japanese won a signal victory, sustaining little damage to their fleet. The location of the fight differs in the two official reports, but this is probably due to either a mistake in translating the official code or to the selection of different points of geographical proximity in defining the position of the fleets by the Japanese officers who sent the dispatches.

Foreign Press Comments.

London, Sept. 21.—The Berlin correspondent of The Standard says negotiations are in progress between Germany, England and Russia relative to the war between China and Japan, and that identical instructions will probably be sent to their respective ministers at Pekin.

The Standard, commenting on the situation, says it is difficult to say which of the two, Japan or China, has gained any material advantage, but thinks the position of the enforcements landed at the mouth of the Yalu must cause extreme anxiety in Pekin.

The Daily News says it is now impossible to doubt that the chief fruits of victory at Yalu remain with the Japanese.

The Chronicle says the Japanese are now virtually in command of the sea and will be for a considerable time. If the war continues at the present rate it cannot be long before China will be reduced to the necessity of asking terms.

Pittsburg, Sept. 20 Senator Calvin S. Brice spent to-day in Pittsburg and left for the East at 4:30 p m The Senator expressed himself as satisfied with the outcome of yesterday's convention He does not consider himself bound by the action of the convention in adopting the free silver plank in the platform, as he says it contains no definite declaration on this subject and may be construed to fit almost any interpretation that may be put upon it. He thinks the Democratic party has the best of chances to carry the State of Ohio next year, and says there is but little doubt that it will succeed in doing so.

AN OMINOUS CLOUD.

An Engineer's Strike Threatened on the Missouri Pacific.

Little Rock, Sept. 20.—As the last smoke of the recent railroad strike dies away another ominous cloud appears in the horizon which may yet break with scarce less fury than did the troubles of last July involving the State, possibly the country in another labor war.

Since Saturday the Missouri Pacific is said to have discharged 14 firemen and 6 engineers at this end of the line and 8 or 10 firemen at Van Buren, on the charge of being implicated in the strike or expressing sympathy with it. There are said to be 25 more names on the list of men who will be decapitated soon. The majority of the men refused to go out in the strike, but some of them had casually expressed sympathy with the strikers and for this reason are being decapitated.

The railroad men are very much excised over the action of the company, and it is stated on good authority that the Brotherhood of Locomotive Firemen and Locomotive Engineers have issued an ultimatum to the effect that unless the company re-instates the men thus far discharged by Sept. 26 a general strike will be declared.

An ex-railroad man stated this afternoon that a list of 125 names was taken to headquarters at St. Louis last Monday and that all of them will be discharged Most of them run on the Fort Smith branch. Several Little Rock firemen have laid their grievances before the Firemen's convention now in session at Harrisburg and some action may be taken upon the matter there.

Superintendent Rose of the Iron Mountain is absent from the city and every one connected with his office refused to discuss the subject.

The Catholic Verein.

New York, Sept. 20.—Delegates to the German Catholic Central Verein were entertained this afternoon by the committee of arrangements with a banquet at Sulzer's, Harlem River Park. About 1,500 guests sat down for dinner. Vice President Wolfe complimented them on the good work they had done. Mr. Spaun, Rev. Dr. Josiah Schroeder, Mr. Spaunhorst of St. Louis, and Dr. James Brodick responded to toasts.

STRIKE CONDEMNED.

Significant Resolution Passed by the Locomotive Firemen.

CHIEF SARGENT ENDORSED.

Hannahan's Course at Chicago Repudiated--Contracts Must be Kept by Members of the Brotherhood--Adjournment.

Harrisburg, Pa, Sept 20—The consideration of the report of the committee on death and disability claims occupied almost the entire attention of the Brotherhood of Locomotive Firemen, and it was 7.30 this evening when final adjournment was reached

An appropriation of $12,000 was made for the relief of the 196 idle firemen on the Lehigh Valley railroad, who have been out of work since the strike

Galveston, Tex., was selected as the next place of meeting

The following resolutions were adopted "On the question of defining the position our members shall take in a strike where they are not directly interested we recommend the following

"Whereas, There has been a disposition on the part of members of the Brotherhood of Locomotive Firemen in certain localities to disrespect and ignore the agreements with their employers by going on strikes in direct violation of the constitution and by-laws of the order and a total disregard for interest of their employer and the welfare of the Brotherhood, and

"Whereas, Such action is at all times condemned by this body as irrational, fanatical and illogical and injurious to both employer and employe; therefore, be it

Resolved, That it is the sense of this convention that such action on the part of your members be denounced, and that in the future we shall insist that they live strictly up to the laws of the order and the contracts under which they are working at all times and in all places; and we emphatically declare that when we enter into an agreement with any railroad company to follow such agreements to the letter in accordance with the laws of the order; and we further demand on the part of other labor organizations that they do not interfere with the members of the Brotherhood of Locomotive Firemen while working under such contracts, and it is the sense of this body that so long as we are not asked to perform work outside of our particular line of duty we will comply with any agreement entered into with any railroad company.'"

The last resolution was intended to set the Brotherhood right on the Pullman strike controversy, and must have sounded unpleasantly in the ears of Vice Grand Master Hannahan, who told the newspaper representatives on Saturday that the convention had endorsed his course at Chicago by unanimously adopting the report of the committee on investigation. The resolution states that it having appeared in a newspaper the convention had "endorsed the action of Vice Grand Master J. J. Hannahan in the late Pullman strike, we deny that we have by our action done anything of the kind, but on the contrary we endorse the stand taken by our grand master, Frank P. Sargent, general secretary and treasurer, board of grand trustees and grand executive board."

A resolution was unanimously adopted to remove the grand lodge from Terre Haute, Ind., and the grand master and grand secretary and treasurer were authorized to select a new location for headquarters.

LATEST FROM BLUEFIELDS.

A Budget of News Brought by the John Wilson.

Bluefield, M R., Nicaragua, Sept. 15, via New Orleans, Sept. 20—Per Steamship John Wilson.—The election passed off quietly September 8, and there has been no serious disturbances recently. Gen. Ortiz is a prisoner at Corinto. He is perhaps the ablest soldier in Nicaragua, and the foolish arrest may cause a revolution.

On September 13 Senor Madriz, special commissioner, issued a special decree prohibiting any stores on the Escondido or Bluefields river. This causes a loss of thousands of dollars to Americans.

Orders have been issued that any party flying a foreign flag on his property shall be fined $15 a day.

On September 14 the United States ship Columbia returned from Corin Island and the Marblehead steered at once for Port Limon, Costa Rica, for instructions

A fight is reported as having occurred at Cape Gracias a Dios, the reports of which show that no great damage was done

INDIANS SENT BACK.

Geronimo's Famous Band will Return to Arizona.

Washington, Sept. 20 Gen. Howard has issued orders for the immediate removal to Fort Sill, I. T., of all the Apache Indian prisoners (Geronimo's band) now at Mount Vernon barracks, Ala. Fe-Kim-In-Zin and his band of about 40 San Carlos Indians all prisoners at the same place, will remain where they are until further orders, but they must be taken away very soon, as the post is to be abandoned after October 1.

A SMOOTH SWINDLER.

A Jail Bird Worked a Ticket Agent at Duluth.

Duluth, Sept. 20.—Yesterday morning an old gentleman with flowing grey beard and excitable manner, which would remind one instantly of Henry Keller, the famous Stearns County Senator, came into the Spalding and registered as A. G. Highton and servant, Portland, Ore. He announced himself as the manager of Ornament & Surprise Mining Company of Portland. He next made for the Eastern Minnesota office and soon convinced Walter Whitten, the ticket agent, that he was one of the best fellows that had planted himself in Duluth for many days. He arranged for a special car out of here last night. In payment he gave a check for something over $100 on the Bank of Commerce, Buffalo, N Y He also gave the Spalding a check for about the same amount and Mr Whitten endorsed this With many regrets that he could no longer remain he left A dispatch was sent to Kidder, Peabody & Co., Boston bankers, whom Highton said claimed were backing him The answer said that Highton was a jail bird, having served for passing bogus checks. The police were put on the trail at once Highton was located in St. Paul and was arrested and is being held there

FROM A TO B.

Western Amateur Riders Who are Henceforth Professionals

New York, Sept 20—Chairman Raymond of the racing board of the American Wheelmen, to-day announced the transfer of the following crack Western class A riders to class B for violations of the rule governing that division W J Burner and F. Ferguson of Kansas City, James Collier of Denver, Colo.; D Coburn, the St Louis record breaker; W S. Furnam Arlon, O., the holder of several State records, G F. Haskins, S. M Hocken, C B Howard and O Rubenscheld of Kansas City

GAMBLERS SCARED.

Expensive Implements Smashed and Burned.

Chicago Sept 20—The gamblers who have thus far looked on at the efforts of the Civic Federation to close up with a smile and a sneer are to-night genuinely alarmed and not a single gambling resort is open. Early in the day the Mayor ordered the places closed and his orders were completely obeyed.

Notwithstanding this the House of David and the Newport club were raided on the search warrants issued by Judge Brentano yesterday The sheriff took two very valuable lay-outs, and although he was served with writs of replevin he refused to return the property until ordered to do so by Judge Brentano The matter was carried into court and Judge Brentano not only refused to surrender the furniture, but ordered it destroyed It was carried into the basement of the county building where six deputy sheriffs smashed it into kindling wood.

This new tactic on the part of the reformers gives the gamblers good cause for claim for if their ever ready replevin writs are going to prove useless they are left no ground to stand on

A DECISION REACHED.

South Carolina Judges Sustain the Famous Dispensary Law.

Columbia, S. C., Sept. 20.—The Register will publish an article in the morning in which it says it has reliable authority for stating that the judges of the Supreme Court have written their decision in the celebrated dispensary cases. The information is that Justices Pope and Gary will declare for the constitutionality of the law in toto, while Chief Justice McIver will maintain its unconstitutionality on the ground advanced by him in a previous decision. The opinions of the Justices have not yet been filed with the clerk of the court.

When such a decision is rendered the authorities will resume their warfare on "blind tigers" with increased vigor and it will be strange if much trouble does not follow.

RAILROAD TAX WAR.

Kentucky Farmers Will Resist the Collectors Forcibly.

Princeton, Ky., Sept. 20—The report from the seat of war over the collection of the railroad tax in Tyndel and Caseyville precincts in Union County this morning is that the citizens are arming themselves with Winchesters and dynimite bombs, and will resist to the death the collection of this tax

Collector Blackwell is swearing in deputies, arming them, and says he will begin work at once.

The trouble is over the collection of the railroad tax of the Shawneetown and Madisonville railroad a road that was projected but never built. The people say they will never pay the bonds.

A Well-known Broker's Death.

New York, Sept. 20 James M White, a well-known member of the Cotton Exchange, died this morning at his home in Brooklyn The cause of death was consumption, combined with gastic fever.

Just prior to the close of the Cotton Exchange to-day J. E. Totten, the attorney for the firm of J. M. White & Co. sent a notice that owing to the death of J. M. White and absence by sickness of the junior partner of this firm, he was obliged to announce temporary suspension of the firm

Mr. Totten was seen at the office of the firm on Beaver street and said. "The firm of J. M. White & Co. would have liquidated its accounts on October 1 anyway, owing to the ill health of Mr White, the senior partner, but Mr. Johnson would have run the business in his own name at the same place and probably will do so, as the firm is perfectly solvent. All accounts will be settled at 100 cents on the dollar."

Scottish Rite Masons.

Boston, Sept. 20—The closing session of the Supreme Council of the Thirty-third degree, Ancient Accepted Scottish Rite was held to-day at Masonic Temple, with Grand Sovereign Henry L Palmer in the chair. The following officers were appointed for the triennial term: Assistant Grand Secretary, Joseph P. Abel, 33d degree, of New York, grand prior; Rev. Josiah L. Seward, 33d degree, of Lowell; marshals of the camp, J. H. Hobart Ward, 33d degree, of New York, Henry C. Ulmer, 33d degree, of Cincinnati, O., and Amos Pettibone, 33d degree, of Chicago, organist, Andrew Lambech, 33d degree, of Cincinnati; seneschal, Chas V. Heyger, 33d degree, of New York. There with the elected officers were installed.

It was voted to hold the next meeting at Buffalo, N. Y., next September.

A Resignation Accepted.

Washington, Sept. 20 Secretary Carlisle this afternoon accepted the resignation of Supervising Architect O'Rourke of the Treasury Department, thus ending an episode that has caused considerable comment of late and given rise to many insinuating rumors. Mr. O'Rourke will return to Newark, N. J., to resume his business.

A BLUFF OF ORE.

Discovered at Camp Truro in the Four Mile District.

A BIG PLATTE RIVER DEAL.

A $100 000 Scheme to be Entered Into by the Gold Mining Investment Company — Several New Leases—Local News.

Special to The Gazette

Cripple Creek, Sept 20—Camp Truro in the Four Mile district comes to the front with a genuine mining sensation in the shape of a find of a solid bluff of ore that runs from $1 to $11 on the surface The original find was made on a claim owned by C. E Frank The formation around here is volcanic and can be easily worked, while the ore is said to be free milling. A good mill site has been located and splendid water power is convenient Negotiations are now pending for the purchase of the property by an Eastern syndicate who will put up a mill for the treatment of the ore. Several tons of the ore have been sent to the mills to test it and see if it really is a free milling proposition or not.

The Galena lode on Red mountain, nearly two miles from town, and which has always been considered out of the mineral belt now has a shaft down 90 feet and a recent shipment from there to the smelter gave returns of over $85 to the ton. The ore in this mine has increased gradually from the surface, getting wider and richer as depth was added The pay streak is about 12 inches wide and assays from it have returned as high as $200 to the ton. The full width of the vein is 8 feet The owners are Messrs. Proper, Gain and Work.

On the Temonj lode, one of the properties of the Ben Hur company, and which is located just above the Lawrence mill, are sinking on a vein of fine looking ore, the pay streak of which, commencing at one inch, has now widened out to over 17. The shaft is now down 90 feet and the work is under the management of Mr. Kinsey. The average value of the ore is rather low yet but an improvement is looked for at any time.

The Bertha B. people have their new shafthouse, ore bins and blacksmith shop completed and two shifts at work. Mr. Airheart says that shipments will commence next week, and from this time on work will be prosecuted in a scientific manner.

Mr. James Casey has a lease on the lower end of the Little Nellie and on the south end of the Jack G., both claims being owned by the New York company and situated on Raven hill Mr. Casey says that the prospects are good and hopes to have some ore ready for shipment soon.

Messrs. J. T. Paine and J. P. Shedepart leave for the Platte river to-day to close a deal for a large tract of placer ground and a townsite The deal involves about $100,000 and the gentlemen leave in the interests of the Gold Mining Investment company who are at present operating with the Lincoln.

The Wilson lode, one of the Free Coinage group, on the summit of Bull mountain, was leased to-day to W. R. Snape and DeWitt Quereau of the Independence, and Al. Wilkerspoon. In a 20 foot shaft a body of ore has been found some 7 inches wide which runs $31 to the ton on an average from three assays. Work will be started to-morrow.

The Chamber of Commerce has completed arrangements for receiving the Monday Evening club of Pueblo, who will arrive on Saturday to drive around the Golden Circuit. They will be accompanied by J. M. Parker and Geo. A. Phillips from Pueblo here and will number over 200.

About 300 people are in Victor to-night assisting at the opening of the Hotel Victor at that place

The Republicans are making great preparations for the ratification meeting to be held on Saturday night.

Will Sheffield has been taken by an officer to Denver. He is wanted there for embezzlement and has been employed here for some time past by the Kuykendall Transportation company.

I. O. O. F.

Yesterday's Proceedings in the Sovereign Grand Lodge.

Chatanooga, Tenn., Sept. 20.—The third day's session of the Sovereign Grand Lodge I. O. O F., was opened at Lookout Inn this morning. The report of the committee appointed to locate and erect a building as headquarters in Baltimore was postponed indefinitely. The law requiring a canton tax was repealed.

A past grand masters' and past grand patriarchs' association was authorized for each jurisdiction.

A special committee was appointed to investigate the alleged misappropriation of funds donated to the Fargo sufferers.

The temporary bonds of $10,000 each made by the grand secretary and grand treasurer is to be made permanent after six months.

Legislation on the admission of women to the order through the Rebekah lodge came next. The new legislation admits all Odd Fellows and wives and all white women over 18 years of age who "believe in the rules of the universe" Formerly only the wives of Odd Fellows were admitted. The ladies had their time of pleasure this afternoon, being taken as the guests of the local Rebekah lodge for a drive over the government road to Missionary Ridge and Delong's place, where a Bohemian luncheon was served.

WANTED—A MAN.

A Negotiator of Spurious Bonds from Missouri.

St. Louis, Sept. 20—Robert Murray is a much-wanted man in this city. He came here from Southwest Missouri one month ago with a flourish as a man with money to invest. He bought an interest in a Broadway branch of the American Brewing company and paid for his purchase in Vernon county bonds. His collateral passed through various banks until one of the bonds fell into the hands of the First National bank of Nevada, Mo., through the Continental bank of this city. The Nevada people refused the bond because it was not registered with the Secretary of State as required by law

This opened inquiry and it is now known that two sets of Vernon county bonds are on the market—one regular and the other unregistered. Murray disappeared and is supposed to be in New York Childs & Atkinson of this city and the St. Louis National bank have handled these bonds and the amount of the spurious issue is thought to be large.

COULDN'T DO IT.

Robert J. Failed to Lower His Pacing Record.

Galesburg, Ills Sept. 20—Another day of the race meeting on the Williams track here was voted successful by a large crowd which witnessed some good events. Under a sunny sky Robert J was started to beat his own record of 2:01 1-2, but failed, although the track was in splendid condition His time was 2:06 3-4 Directly shattered Carbonate's record for 2-year-olds of 2:09, made at Terre Haute last week, covering the mile in 2:07 3-4. Online attempted to beat the 4-year-old record of 2:07 1-4, but the watches showed the same figures when the horse came under the wire after a splendid effort.

Joe Patchen, 2:04, and John R. Gentry, 2:03 3 4, were matched for $5,000 a side, the race to take place Saturday

It was after 4 o'clock when Geers appeared on the track behind Robert J. He gave him a warming mile in 2.13 and after a combing out and an exercise spin came out for the mile On the second score Geer nodded his head for the word and the gelding and his helper were off. The start was strong and steady and the pacers showed themselves at the quarter in 30 seconds flat. To the half the pace was a bit slower and the watches showed 1:01 1-2 as the team flashed past the pole. The crowd cheered as they saw the speed shown and everybody thought the horse would surely break his record But from the half Robert seemed to falter and at the three-quarters he marked 1:31 3 1. Down the stretch Geers grew uneasy and began to ply the whip a little It availed nothing for the beast seemed tired and the best he could do was to finish the mile in 2:02 3-4 amid great cheering. McDowell then brought Directly out to beat the 2-year-old record of 2:09 made by Carbonate at Terre Haute last week. The horse went to the quarter in 32, to the half in 1:04 1-2, to the three quarters in 1:36 1-4 and the mile in 2:07 3 4, thus reducing the world's record for 2-year-olds. The horse showed much reserve strength and it is thought will do better work before the season closes.

Online was then given a mile to beat the 4-year-old record of 2:07 1-4, but the best the horse could do was to tie it. He made the quarter in 31 1-2, the half in 1:03 1-2 and the three quarters in 1.35

NEXT YEAR'S BASEBALL.

A New National Association Already in the Field.

Pittsburg, Pa., Sept. 20—The dispatch telegraphed from here last night by the United Press in regard to the new baseball association that is to be in the field next year, and the fact that the National League had already taken steps to blacklist any player that has already or would join the new association, created a sensation in base ball circles today.

Ex-Manager A. C. Buckenberger of the Pittsburg club and A. K. Scandrett, ex-secretary of the same organization, to day stated that the new league had already been organized, and that the premature publication of the plans can in no way interfere with the arrangements already made.

From these gentlemen it was learned that the circuit is to be made up of Pittsburg, Philadelphia Boston, New York, Brooklyn, Detroit, Providence and Chicago, or Buffalo, and that the new organization is to be known as the National Association. The admission to its game will be 25 cents. It is not the intention to fight the National League, but to arrange a schedule of games so as to not conflict with that organization.

Cleveland's Unpleasant Day.

Buzzards Bay, Sept. 20—Another disagreeable day has kept the President at Gray Gables all day, except early tonight, when in company with Mrs. Cleveland he drove over to the village for the mail. Mrs. Carlisle, wife of the Secretary of the Treasury, is expected tonight or in the morning at Marion for a few days' visit to Secretary Hamlin's cottage.

A Sudden Death.

Ayer, Mass., Sept. 20.—Albert L. Fersenden, president of the Townsend National bank, dropped dead while walking from his home to the bank this afternoon. He was 65 years old, and very prominent in Masonic circles

A Convention Deadlock.

Canton, Miss., Sept. 20.—The deadlock continues in the Seventh district Democratic Congressional convention, Col. Hooker leading with 1450-100 out of 35. A proposition to leave the question to be settled by county primaries to be held in October was defeated by 10 to 25.

A Water Tank Collapsed.

New Orleans, Sept. 20—By the collapsing of a 15,000 gallon water tank at Martins saw mill to-day Clarence Jefferson, colored, was fatally hurt, and William Thompson, a young white man, was seriously injured

Will Not Invest Money.

E. M Ashley is one of the business men of the city who has handled large amounts of money for Eastern parties, the most of which has been distributed about the city in sums ranging from $500 to $1,000 and $2,000 A great deal of this money has found its way to the pockets of those in moderate circumstances desiring to secure loans to make payments on homes or to construct them. From one party in Michigan Mr. Ashley obtained money, $10,000 at a time, for investment in Denver at an interest of 8 per cent. A few months ago, Mrs Ashley says, the party wrote him that he did not desire to invest any more money in Colorado, and would withdraw the proposition of a previous communication in which he announced he had a large sum of money he would send out if a place could be found for it. Since that time Mr Ashley says he has had several letters from the party urging him to secure his money if he could. "From the press reports," he writes, "I see your bory-bitted Governor is again about to get into the saddle and every time he draws his sword and takes to the saddle rates of interest advance to foreign investors I believe the entire disappearance of your silver mines would not do as much harm to your State as the utterances of your Governor. Among the fools of the earth he would be a lofty one. I had expected to send you a sum of money before this, but the uncertainty existing in Colorado, for a man to collect what is due him without litigation, is discouraging and causes me to change my mind. Consequently, if any or all who are owing me wish to pay, I will accept payment and release mortgage."

Several others letters were received by Mr. Ashley, written in the same tenor.

Will Withdraw Every Dollar.

William J. Harris, a well-known attorney and former dealer in securities, was seen recently by a representative of The Times-Sun and without reserve gave his opinion of the Populist movement that has caused so much trouble to the State "I have in my possession many letters which show the state of feeling among the eastern people better perhaps than anything I can say. Why, one letter I recently received," said Mr. Harris, "from New York, was one of the best campaign documents that has ever appeared. The writr said that if the Populists continued in power every dollar that had been invested by eastern people out here would be withdrawn and not a cent sent out here to take its place. The people in the East have confidence in the resources of the State and are willing to spend money to develop them under a stable government, but they say they can't afford to run the risks under such wild-eyed rule as we have been experiencing. They even now would be willing to buy up our securities if they were assured we would again have as stable a government as we had formally. One of the chief reasons which people give for refusing to buy our securities now is because they are uncertain what the next legislature will do if it should happen to be Populist. They are liable to pass laws that will make it next to impossible to collect debts and they would then have no protection. If the Populists are not defeated this fall it will be next to an impossibility to sell any Colorado securities in the East. They will be willing to buy neither stocks nor mining properties nor can we borrow any money there.

Ultimate Ruin of the State.

G. O Shafer, a prominent real estate broker was most emphatic in his denunciation of the harm caused by the Populist administration and was of the opinion that a continuation of the experience of last year would mean the ultimate ruin of the State. 'I have recently had a number of interviews with prominent men on this subject," said Mr Shafer, "and they are all of my opinion that nothing can be more disastrous to the State than the continuance of Populist misrule. It seems to me that we have already suffered enough without this additional affliction I find among all business men the impression prevailing that in the future it is going to be next to an impossibility to borrow any money while Populists are in power. Why, I was talking to a prominent manufacturer recently and he said his bread and butter would depend on the result of the next election

Said he: "I have never before mentioned the subject of voting to my employes, but this year I have told them that if the Republican ticket is defeated I shall be obliged to close down my works I will be compelled to do it, for it will be folly for me to attempt to run another year under the present government' That is how the best citizens of the State are talking now and all men whose opinions are worth anything think this way. I believe that if the Republicans put up a good ticket the Democrats of the State will vote for it rather than see the Populists in power again Everyone in both the old parties ought to get right to work this fall and see that the disgrace of the past year is wiped out and Colorado is once more restored to her former standing in the opinion of the people of the East. I never before felt so strongly on any subject as I now do on this subject I find that about everyone in El Paso county feels as I do and those who never before took an active part in politics are now going in. First the panic struck us and then, the Governor and of the two I regard the latter as by far the greater calamity"

No End of Harm.

One of the best-known firms in the city is that of Stevens & Hanchett, real estate dealers and agents for eastern capitalists This firm has placed many thousands of dollars with Denver and Colorado people who needed it to improve property and now an effort is being made to get the most of this money out of Colorado. In conversing with the members of the firm about it, Mr. Hanchett said nearly every party for whom they had been handling money had written letters requesting the loans they had made here be taken up as speedily as possible and returned to them "No one is extending loans in Colorado if they can help themselves," said Mr. Hanchett. To verify this statement Mr. Stevens took from his desk a number of letters, nearly all of which contained expressions of uncertainty as to the future of the State and the references made to the administration were couched in the words, "your crazy governor."

Must Redeem the State.

A reporter for The Times-Sun called at the office of W F. Kendrick, one of the leading mining men and brokers of this city. Mr. Kendrick said he had a number of dispatches and letters from responsible people withdrawing their investments from Colorado or declining to make investments on account of the present political situation I spent two months at the seashore and resorts in the East, only returning recently, and Colorado people are made a laughing stock on account of the sayings and actions of Governor Waite, and parties with whom I talked, and who in the aggregate, have invested millions here have positively declined to increase their investments, but will withdraw as fast as they can until Colorado reclaims herself politically"

A MILLION DOLLAR SCHEME.

It Hinges Upon the Result of the Election.

Boulder County Herald.

M. F. Leech is well known in Boulder county as being a man whose word can be relied upon. He has been working at a scheme which if successful will mean the placing of a million dollars or more in this county and of being of great benefit to our mining interest. In writing to a friend about the outlook, he did not intend the letter should be used for publication but merely to give that friend an idea as to the lay of the land. We have been allowed to make the subjoined extract from the letter and do it to show the people the feeling which exists in the East in regard to Colorado and the Populist administration What the defeat of Waiteism means to Boulder county it means to many other places in the State After referring to other matters Mr. Leech writes from New York city, under date of September 17, 1894:

On the Boulder matter I spent two solid months, seeing different parties every day The first question asked in every case was "Where is your scheme located?" When I answered 'Colorado' they at once would say 'no no further we will not invest a cent in Colorado.' In the past few days I have found a party that have plenty of idle money and are anxious to invest. They asked the usual question and in reply I asked permission to tell my story and answer that question afterwards. This they granted I got them interested enough to say it pleased them, but when I told them it was in Colorado, one of them said, 'That is too bad, we cannot think of intruding our capital on the good people of Colorado. They don't want it and we don't want to force them to take it.' After some talk they finally agreed to do this. Between now and the next thirty days, they will either go to Boulder or send an agent to look it up If found O. K. they will get everything in shape at this end and wait the result of the next election in Colorado If the State goes Republican they will take up the scheme and push it. There are five in the party, four Democrats and one Republican, but they do not propose to invest a cent under a Populist government."

Mr Leech expects to reach Boulder in about two weeks.

The Way It Works.

Durango Southwest.

The following letter to a well-known business man of this city is but a sample of thousands that have been received in Colorado during the past year. The party in interest has a bond on a good mining property and had almost concluded a sale for a handsome sum, which would have put the owner beyond want for a lifetime and realized a handsome profit to the negotiators, when he received this letter

Pittsburg, Sept 4, 1894.

Mr

Dear Sir Owing to the strikes and other disorders that have taken place in yours and other western states, it is next to impossible to get capital to invest at present. I have a man here who has unlimited capital, and who thinks silver will be all right in the near future, but he is afraid of the Populists getting in power out there, and he thinks if they should that he would not want to have his money invested out there. He says after matters become more settled out there if you still have the group, he would be pleased to have Mr. P go out to examine it I will send you the option or destroy it, as it is no good after it has lapsed Hoping that everything may turn out right in the future, I am very sincerely.

A Good Showing.

Denver, Sept 20—Auditor Murphy of the Denver and Rio Grande his issued his statement showing the earnings of the road for the second week of September.

The statement shows the receipts from freight during the week were $100,400, for passenger business, $37,500, and from express, mails, etc, $10,200.

The corresponding figures during 1893 were: Freight $77,000, passengers, $30,000, express, etc., $15,000 The increase is $35,100, or a little over 28 per cent

For the fiscal year to date the receipts from freight were $890,621; from passengers, $269,349, and from express, mails, etc, $190,291, a total of $1,350,261.

The corresponding figures last year were freight, $723,497; passengers $207,443, express, mails, etc, $152,051, making a total of $1,182,991. The increase in receipts for the fiscal year is $167,270, a trifle over 14 per cent.

The auditor is feeling very happy over the good showing made.

STATE RAILROADS.

AN INTERESTING GOVERNMENT REPORT ISSUED.

Government Railroads Not a Success—Freight and Passenger Transportation Cheapest in the United States—States That Have Abandoned the Railroad Business.

Washington, Sept 19—In compliance with a resolution of the Senate, introduced by Senator Pettigrew, the interstate commerce commission has compiled some data regarding the ownership of railroads by foreign governments. This is summarized as follows It appears that ten countries do not own or operate railways, viz.: Colombia, Great Britain and Ireland, Mexico, Paraguay, Peru, Spain, Switzerland, Turkey, United States and Uruguay.

The following governments own and operate some of the railways. Argentine, Australasia, Austria-Hungary, Belgium, Brazil, Canada, Cape of Good Hope, Chili, Denmark, France Germany, Guatemala, India, Japan, Norway, Portugal, Russia and Sweden—18.

"The following governments own part of their railways, but do not operate any, leasing all the present mileage to private companies. Greece, Holland and Italy Though not claimed to be accurate, it is believed that the foregoing summary reports and approximately correct statement of the relation of the various governments to the railways of the world:

"The relatives rates charged for freight and passenger service on the government-owned railroads and the other facts cited in connection with such roads, are calculated to afford little encouragement to the advocates of government ownership. A comparison of passenger charges per mile shows an average of 4.42 cents for first-class, 3.20 cents for second-class, and 1.94 for third-class In France the average is 3.86 cents for first-class, 2.86 for second-class and 2.86 and 2.08 for third-class. In Germany the rate is 3.10 for first-class, 2.32 cents for second-class and 1.54 cents for third-class

Lower in America.

"In the United States the average charge is 2.12 cents

'The average charges per ton per mile are as follows' Great Britain, 2.80 cents; France, 2.20 cents; Germany, 1.64 cents and in the United States 1 cent. The interest on capital invested in these countries is as follows United Kingdom, 4.1 per cent; France, 3.8 per cent; Germany, 5.1 per cent; Russia, 5.3 per cent; Austria, 3.1 per cent; Belgium, 4.6 per cent; United States, 3.1 per cent. The system of operation of the railroads in different countries is indicated:

"In Austria about 4 per cent of the railway mileage is owned and about 43 per cent is operated by the state. Upon the expiration of charters, not exceeding ninety years, the lines, lands and buildings of the companies are turned over to the government, but the equipment remains the property of private owners Before a railway is opened it must be approved by the minister of commerce The tariffs of state roads are fixed by the government, those of the companies are subject to revision by the government every three years, and the government has power to reduce rates, if the net earnings exceed 15 per cent. on capital

Other Examples.

"In Canada also one-tenth of the mileage of about 15,000 miles is owned, controlled and operated by the government. For the year of 1892 the operation of the government lines resulted in a loss of over $600,000.

"At the present date by far the larger portion, about five-sixths of the French railway state is operated by private companies, each company serving a definite territory and being comparatively free from the competition of other lines But the railroad properties are ultimately to become the property of the government. This system is a mixed one of state and private ownership

'In Germany nearly 90 per cent of the railway mileage is owned by the government Under the law the government is required to manage the railways in the interest of general traffic on a single system. It may cause the construction and equipment of roads, and inforce uniform traffic and police regulations.

"In Great Britain and Ireland the government does not own the railways There are stringent regulations provided by law and administered by the railway commission and board of trade.

'Italy has tried both state and private railroads The result was a reorganization of the whole railway system Under the present system private companies operate the state roads under contract with the government.

'In Russia the government is stated to own and operate about 40 per cent of the railway mileage. Nearly all of the railways owned by private companies have received subsidies from the government.

'It is stated that in the United States several of the States have tried ownership in a limited way. Illinois constructed a road at a cost of $1,000 000 but disposed of it for $100,000. Indiana had a similar experience; Georgia owns a railroad, but found it expedient to lease it to a private company, Pennsylvania constructed a railroad from Philadelphia to Columbia, but subsequently sold it Massachusetts, Michigan and, several other States tried the experiment without success."

The inter-state commerce commission disclaimed any original investigation on this subject, the report being compiled from existing sources of information.

THE QUEEN OF KOREA

SHE IS HANDSOME, TALENTED AND DRESSES WELL

The Most Picturesque Thing of All the Royal Heads—Her Manner of Dressing and Her Fine Gowns—Her Influence, Diplomacy and Progressiveness.

(Special Correspondence.)

ASOV, Chin., Sept. 1. Just now the queen of Korea is an exile in China, with the rest of the Min (royal family of Chorsen), but before the present mishap which befell Korea took place she was seated on her throne as proud and beloved a ruler as any of the great potentates of the orient. She is the most interesting of all the Asiatic royal heads, having more intelligence, diplomacy, beauty and intrigue.

When I was first in Korea, especially while at Seoul, she was holding royal levees and drawing forth the highest praises from all her subjects and foreign courtiers for her accomplishments, both social and otherwise, and her natural talents and gifts.

To begin with, she is a beautiful woman, as you can tell from the portrait, said to be the only authentic one in existence. She has the high, intellectual forehead which belongs to the Tartar race, the smooth, beautiful olive brow, the long nose, the energetic expression and the strong

QUEEN OF KOREA AND HER SLAVE.

chin, jaw and high cheek bones. Her hair is a soft brown, as are her eyes. Her mouth is rather large, but full of character. Her nostrils dilate when she talks as do those of a high bred horse when running a great race. Her movements are as graceful as those of a fawn, and she rejoices in one of the sweetest voices I have ever heard. Her ideas of dress are purely antiquated. Unlike the empress of Japan, whom I have seen, she refuses utterly to add foreign ornaments to her person, and she relies almost wholly upon Korean products for the articles of her toilet.

The principal articles of her costume are inner and outer robes of various lengths made of silk, satin, velvet or grass cloth. In some there is a lapel at the top, which fits tightly to the neck and is gorgeously embroidered. In others the tunic is long, draping to the ankle, and is there fluted and ruffled like a new style petticoat. The sleeves of the gowns are much wider and longer than the arms and have no cuffs or facings. In the inside are various pockets, where the queen carries her scented handkerchief, cut in the shape of a star, instead of square, like ours, her snuffbox, her eyeglasses with tortoise shell ornamentations, her rice powder and puff and her eyebrow pencil. The sleeve is just the same as the aristocratic Korean court lady as the pocket is to the average American woman.

The shoes of her royal highness are not as large as those of the Japanese queen and not as small as the No. 1 wife of Li Hung Chang. They are a happy medium, a cross between those of a Chicago and New York maiden. They are made of silk or cotton and of wonderful patterns. All court ladies seem to take as much interest in thinking up odd designs for shoes in Korea as the women of our own country do for chatelaine ornaments. One pair of slippers which I saw worn at a general's reception by a Korean official's wife were shaped like a junk, with the bow and the stern of plaited silk. The tongue, rising like a sail, represented that important feature of the junk, and a queer shaped buckle mounted the whole, which was just the design of a Korean oar. The queen's slippers, shoes and boots are made up in hundreds of patterns—butterflies, humming birds, ricebirds, blackbirds, snakes, royal hats and gloves. Speaking of the latter, one curious kind of Chosen shoe has parts made and fitted for each toe just like a glove. These shape on closely and make the foot appear just like a well dressed and gloved hand. The effect is rather strange at first, but after one gets used to it is more artistic than grotesque.

At one of the late court levees the queen appeared in a rose colored costume, with petal draperies, lemon trousers and petticoat deeply embroidered in white. The dress was very simple and loose fitting, but her gorgeous hair was elaborately dressed and ornamented with clasps of jadestone. She wore earrings and bangles to match. Unlike in China at a levee given by the queen, all subjects, officials and others who do not pay the proper homage to her majesty are beheaded. There is very little of this style of punishment to be dreaded in the "land of the morning calm," however, for the little queen's greatest fault, I fear, is attracting and fascinating too many royal members of the court. It was whispered when I was in Chemulpo that the real reason of the internal rebellions in Korea was brought about by the intrigues of the queen. The only way in which this could be credited, however, was by conversations which she had with foreigners in which she is said to have given out that she was tired of Chinese and Japanese interference with her country, and she hoped to live to see the day when Korea would be a thoroughly independent kingdom.

Of course, as Korea stands today, it is merely a tributary province of China, and every custom practiced is prescribed by the dragon emperor and his imperial family. Outside of the empress dowager of China the rest of the reigning clan are idiots, minutes, lunatics and imbeciles, and it is not peculiar that an intellectual woman like the Korean queen should be unhappy in the confession of having to live her life just as the Chinese rulers command.

She is very kind to the ladies of her court, taking a strong and affectionate interest in their love affairs and giving a fair dowry to them when they marry. She has not the admiration for foreigners personally that marks the Chinese empress dowager's character, but she treats the Lan Kwai with respect and courtesy and always adjures her countrymen to study and learn from them all they can of the twentieth century arts and sciences. One of the greatest of the English diplomats in the east told me not long ago that in his estimation the future of Korea lay in the brains of this little but intelligent queen. WORSE THAN HIS PARTY.

We have heard a great deal, in years gone by of candidates who were better than their party, but it is not often that we hear an appeal to support a party because the candidate is worse than the party. But The Rocky News is equal to any sort of a burlesque, and now it is trying, with apparent seriousness, to support the Populist party in this State because Waite is worse than the party, or because the party is not as bad as Waite, whichever way you choose to put it.

Waite was nominated by a vote of more than ninety-eight per cent. of the Populist convention Does that look as if he were not a true representative of his party? Does that look as if the party did not endorse his acts, and commit itself thoroughly to the endorsement?

Waite was nominated because, and not in spite of, the fact that he is an anarchist His course in defying the law and subverting the constitution, in causing bloodshed and the destruction of property, in promising to pardon out any of the jail birds on Bull hill who might be recaptured and sent back to the penitentiary, has been thoroughly endorsed by his party, and is one of the principal grounds for the admiration with which they regard him His action in attempting to bring on a civil war in this State between labor and capital is another of the reasons for their admiration and their hearty endorsement

After the unanimity with which Waite was nominated, after the fulsome praise lavished upon the 'stand off anarchist,' as they delight to call him in their State-aided sheets warranted to run till election day, after the total lack of any criticism whatever of his course in any real Populist paper in the State, it is idle to attempt to deceive anybody into the belief that Waite is worse than his party He is the very embodiment and quintessence of all that his party delights to honor They would like to see him run all the decent people out of the State, they say they would like to make it impossible for anybody in the State ever to obtain another loan of Eastern money and that it would be much better for the resources of the State to lie undeveloped than for any of the people here to have to pay interest to the "Shylocks." In short, they would be glad to have the property of all the men who have made any money destroyed We do not say this simply because we want to beat that party, such things would be incredible if they were not avowed by the Populist organs themselves and confirmed by the official action of the party.

But in saying that Waite represents his party perfectly, we do not mean that he represents the people who voted for him two years ago, we hope he does not represent half of them After the endorsement the party has given to Waite no man or woman who is not an enemy of society can remain in it, and we believe that some thousands of those who voted for Waite two years ago are now resolved to have done with anarchy, and get out of the organization that upholds it

As for the rest of the Populist ticket, it was named by the same crowd that insisted on nominating and endorsing Waite, and that is enough to condemn it

The so called Democratic convention in South Carolina made a queer exhibition of itself Instead of the last national Democratic platform, it endorsed the Ocala platform, which is substantially that of the Populists, except that it insists more strongly than ordinary Populist platforms on the necessity of the subtreasury scheme This convention was Democratic only in name. The Populists in South Carolina, instead of flocking by themselves, go into the Democratic primaries and capture them, and then claim to be the regular Democratic organization; and all the real old-fashioned Democrats can do is to protest. Tillman and Irby are rather poor substitutes in the Senate for Hampton and Butler, but they represent the majority of the people of South Carolina better than their predecessors

The City Council is doing some very good work this week Most important is the sale of the 5 per cent bonds at a premium of more than $1,000 At a time when most Colorado investments are at a discount, this is a remarkable testimony to the financial good name of our city It is good news too, that the Gulf road will soon build a fine new station which will be an ornament to the city, and which will do much to bring an increase of travel to that excellent line Another important project which has been forwarded this week is the construction of the new reservoir northeast of the city, which will forever prevent a scarcity of water in the North End or any other portion of the city Certainly our Aldermen are more than earning their salaries this week

The new fiscal year of the local Y M. C. A is about to begin, and the canvasser will soon make his annual call on our citizens for subscriptions to carry on the work of the organization for the ensuing year. Arrangements have been made for the services of a skilled physical director, who is a physician as well as an athlete, and the regular classes for men and for boys will begin early next month This will be a most useful feature of the winter's work It is needless to call attention to the fact that this organization is one of the most beneficent in the city, and does a tremendous amount of good No man can make a better investment than to put his money into this institution for the building up of a sound Christian manhood in this place

One of the most wonderful things that has happened in a Southern State in many years is the apparent determination of the Governor of Tennessee, 'Old Pete Turney,' to bring to justice the lynchers of the six colored men who were foully murdered not long ago, on suspicion of having set fire to some barns At a meeting held in Nashville Wednesday night to congratulate the Governor a meeting which was itself a sign of progress one of the speakers remarked that if every Southern State had a Governor like Turney, it would not be long before the negro vote would be divided The implication is obvious. There is no other Southern State which has a Governor of that kind

The Casino season is ending in a blaze of glory Tuesday night was Mr. Romandy's benefit, last night the works of local composers only counting Romandy as a resident—were rendered by the orchestra, to night comes the Elks' ball, and to-morrow the children will have a beautiful time Artistically the season has been a splendid success, and financially it has turned out so much better than anybody expected that it is sure now that the beautiful palace of pleasure will be open permanently, and no one will ever think again of keeping it closed in the summer

The Ohio Democratic convention was a remarkable gathering It must have disgusted Mr. Tom L Johnson It endorsed Brice as against the Wilson bill, and it declared for the free coinage of silver It also took a step towards Populism by declaring in favor of the election of Senators by the people The Democracy is gradually gathering a choice assortment of altogether heterogeneous and antagonistic doctrines, which it will find rather difficult to harmonize in its next national convention

There is a new Queen of the turf Alix has beaten Nancy Hanks's time, and the trotting record stands at 2 03¾ When it comes to trotting a mile so close to two minutes, fractions of a second count. The pacers keep a little ahead of the trotters, as usual, and one of them will probably reach the two-minute mark first, but pacing is not trotting, and almost any horseman would rather own Alix than Robert J

In accordance with the instructions of the Republican Congressional district convention that the candidate should appoint the officers of the Congressional central committee, Hon. Thomas M Bowen has appointed Senator J S Drake of Pueblo chairman, and Gus Krenzke of Beulah, vice chairman

The record for speech-making at least in this vicinity, was broken Wednesday night Fourteen speeches in an hour and three-quarters is pretty good time Can any other city beat it?

PRESS COMMENTS.

La Junta Watermelon A vote for C S Thomas is a vote for Waite"

Rico Sun: "Governor Waite says he has no doubt of the result.' Davis can see his defeat without the aid of double-convex glasses "It's well."

Colorado City Iris 'In making up their ticket the Republicans of Colorado remembered the veterans, the soldiers, widows and the doers of heroic deeds."

Trinidad News "Governor Waite has started on his speechmaking tour of the State Wonder if he will spring his Mexican dollar scheme on the people this fall? We hardly think he will"

Glenwood Avalanche. "The nomination of Thomas M. Bowen for Congressman from the Second district by the Republican convention in Denver last week, meets with the approval of everyone"

Durango Southwest: 'A comparison between Waite, a foul-mouthed, profane abusive, scolding dishonest crank, and Judge McIntire, a modest, gentlemanly courteous and conscious gentleman, is now in order."

Boulder Herald If Colorado should go Populist this year, the people all over the East will blame the women, and the cause of female suffrage will have been put back twenty years further The women owe it to the cause of universal suffrage to defeat Waiteism and Populism"

Telluride Republican: 'Davis Waite has pardoned more criminals, protected more outlaws, created more strife, ruined more men, lost more money for Colorado than any Governor we ever had Grand old man with a red flag Support him Peps, and reap a repetition of the past"

Monte Vista Graphic Vote down the constitutional amendments They were passed by a Demo-Pop legislature and the steal which is made in their publication puts the brand of Cain on them They were designed to be the means of opening the door of the State treasury to still greater robberies than the one we this week ventilate The old constitution is good enough if enforced in its letter and spirit. Let it stand as a protection to taxpayers from all forms of political plunderers"

Des Moines Register The Republicans of Colorado have nominated John Campbell of El Paso county, Colorado Springs, as their candidate for Justice of the Supreme Court. The Denver Republican refers to him as a native of Indiana, and a graduate of the university of that State This is an error. Iowa claims Mr Campbell, and is proud of what he has accomplished for himself and for his fellowmen in the Centennial State Mr Campbell attended school at the State University in the early seventies but was graduated from the law school in the class of 1876, the same year his adopted State was admitted to the Union. Among his classmates there was Mr Helm, who has been chief justice of Colorado and was the last Republican nominee for Governor of the State Mr Campbell, before leaving Iowa, did the best thing an Iowa man can do married an Iowa girl, the daughter of the well known educator, Professor L F Parker, now of Iowa college, Grinnell, but formerly of the State University Mr. Campbell has not only led a successful public life but their home life in Colorado Springs has been a happy and ideal one Iowa is proud of Mr Campbell and sends him its well wishes in the contest that is now pending between the Republican and Populist parties in that State There is every reason to believe that the ticket of which he is a leading member will be elected by a good majority Mr. Campbell is not only competent as a lawyer, but he is affable and popular, and will add great strength to the ticket in that State The nomination of Mr. Campbell is at the same time a tribute to the State University at Iowa City. He is one of the many young men trained in Iowa's university, who have risen into prominence in public life in the west. These men are found not only in Iowa but all over the West. No better advertisement of a university can be cited than the success of its old students."

Courses in Philosophy.

The courses in philosophy at Colorado
ollege are, so arranged, that persons
shing to avail themselves of them can
o so by consulting with President Slo-
um The work with the junior class in
ogic will be under Miss Noyes, and this
ill be followed by courses in Psycho-
hysics and Psychology under the di-
ection of Dr. Slocum The course with
he senior class will begin with five lec-
ures upon Eastern Theosophy to be fol-
owed by twenty upon Greek Philosophy
President Slocum The course in Mod-
rn Philosophy will also be of much in-
erest. The work in Ethics will occupy
he last half of the year.
These courses will begin Monday and
uesday of next week and those wishing
o take advantage of them will please
end notice as early as possible.

Saturday afternoon and evening will be the last chance for dancing at the Casino this season In addition to the regular dancing, Manager Nye has arranged with Mrs Whitbeck to furnish some fancy dancing to help entertain the people Miss Mabel Matthews will give the solo dance, 'Zephyrs' Miss Jessie Barnes will dance the "La Cachuca," Misses Marie Nye and Annie Older will dance the "Maids of to the children during the afternoon 'The the Mist" Refreshments will be served young ladies will have a rehearsal with the orchestra at the Casino this afternoon after the concert is over

In the district court yesterday the case of the People vs. Wm Shelvey West alias the 'Snake-eyed Kid,' was tried Snake-eye is charged with absent-mindedly leading away and disposing of a horse that belonged to John Adams at Cripple Creek The jury decided that Snake-eye was guilty as charged in the indictment In the afternoon, S P Page, a druggist of Cripple Creek, was tried on a charge of forgery He was charged with forging a check to the amount of $18 70 on the firm of Luckraft & Countryman The case was prosecuted by Mr Rockwell and defended by Dunford & Potter

Last evening at the Casino was devoted by the orchestra to playing selections by local composers It was one of the most enjoyable of the season and should have been thought of sooner and not sandwiched in between so many attractions Colorado Springs has some composers of no mean ability as has been demonstrated many times Among those whose selections were played last evening were Mr M O Barnes, Professor Klauss, Mr Louis B Ehrich Mr Brooks and Mr A. C. Pearson. The members of the orchestra whose selections were played were Mr' Romandy and Mr Angelotty

The New York Cash store was busy yesterday entertaining and waiting on the large crowds that thronged the store all day and evening, the occasion of their fall opening. Everything there is metropolitan in appearance and several thousand visited the store during the day. Casser's orchestra furnished the music. Their opening will continue through today

An entertainment is to be given at the High School auditorium next Monday evening for the benefit of the free kindergarten schools A popular price of admission is to be charged The management is quite anxious that the citizens take an interest in the matter, and that there be a large attendance

BOILER EXPLOSION,

One Man Killed and Five More Fatally Injured.

Pine Bluff, Ark., Sept 20 Sixteen men were standing near a boiler at Frank Carver's saw mill about noon to-day when the boiler exploded One man William Warren, colored, was killed, five or more will die and all the rest were more or less injured The saw mill was located near Sulphur Springs, eight miles from this city, and the report was heard and the shock felt distinctly at this distance

The mill was completely destroyed, entailing a loss of $10,000. The negro who was killed was hit with a piece of flying metal and died instantly Engineer Carver, a brother of the owner, was badly cut in the face and head. Engineer Local was dangerously scalded An unknown boy was severely cut in the head Four men, names unknown were badly cut and burned.

Ohio Bankers Adjourn.

Cleveland, Sept 20—The annual convention of the Ohio Bankers' Association which has been in session here for several days closed to night with a banquet at the Hollenden. The afternoon session was devoted to the election of officers for the ensuing year The following were elected John F Whitelaw, president, Cleveland, C F Niles vice president, Findlay, S D Rankin, secretary, South Carleston, H C Herbig, treasurer, Coshocton; Robert McCurdy, chairman of the executive council, Youngstown

President Whitelaw acted as toastmaster at the banquet this evening. Several addresses were made, among the speakers being Comptroller Eckels

The next convention will be held in Cincinnati

A Murderer Hanged.

Fort Smith, Ark., Sept. 20 John Pointer was hanged in the jail yard here at 3 30 o'clock this afternoon His nerve gave was at the scaffold, and he had to be held while the noose was adjusted He died protesting his innocence This morning Pointer made an elaborate toilet and ate a hearty breakfast and dinner The sheriff granted him the privilege of appointing the hour for his execution, and he named 3 30 o'clock Pointer shot and killed William and Edward Vandiver, his traveling companions, at their camp fire near Eureka Springs last February. He was arrested while attempting to sell their team of horses

Boodlers at Galveston.

Galveston, Tex., Sept. 20—Mayor Fly created a sensation at the Council meeting this evening He made a speech in which after calling the attention to the refusal of the Council heretofore to have the books of the city examined by experts, he said: "The city has been systematically robbed for several years. One corporation held a receipt for $1,700 and no record of it is shown in the city's books. The books must be examined and if it is not done at the expense of the city it will be done by private expense."

The Council at once appointed the committee to select experts to examine the books.

An Injunction Against Strikers.

St. Louis, Sept 20 Judge Valliant today granted an omnibus injunction against the striking employes of the Hamilton Brown Hoe Company The injunction was granted on an amended petition filed to-day in which a great many more of the ex-workers were made defendants Under this last injunction the men are ordered to refrain in every way from interfering with the employes of the company and are forbidden to congregate about the place or in any way intimidate the men now engaged in working there.

President Sanford Resigns.

New York, Sept. 20—At a meeting of the directors of the Adams Express Company to-day the resignation of Henry Sanford was received and accepted. L. C. Weir of Cincinnati was elected president. Mr Sanford will continue as a director of the company

Yellow Jack on Shipboard.

Galveston, Tex., Sept. 20—Yellow fever was discovered on board the British steamer Cambria which arrived here on the 18th from Havana. When the steamer first arrived outside the city sickness on board was reported to the quarantine officer who ordered her 15 miles from the city The doctor then inspected the vessel and found the boatswain with a well-developed case of yellow fever from which he died yesterday and was buried at sea Every precaution has been taken by the health officers

Head-End Collision.

West Superior, Wis., Sept. 20—A head-end collision occurred on the Eastern Minnesota about 5 30 this afternoon between a south-bound freight and a work train between Hinckley and Mora. Both engines were badly wrecked, the tank of the freight engine being forced on top of a coal car. Both crews jumped and escaped with slight injuries

Two Noteworthy Deaths.

San Francisco, Sept. 20 George A. Johnson, ex attorney general of California and ex-judge of the Indiana Circuit Court, and Dr Wooster, a grand nephew of Gen Wooster of Revolutionary fame, died in this city to-day.

His Majesty, Cleveland.

Washington, Sept. 20.—A 6 cents conscience contribution from a boy who addressed his letter 'His Majesty, President Cleveland," was received at the Treasury Department. The boy states that he re-used United States stamps and is now sorry for it.

Reed's Speech Postponed.

Ogdensburg, N Y., Sept 20—Ex-Speaker Thomas B Reed of Maine was to have delivered a speech at the Fair Grounds here to day, but owing to the inclement weather the affair was postponed until to-morrow, when it is expected Mr Reed will speak.

Mayor A H Weir of Lincoln, the Populist nominee for Congress in the First Nebraska district, was endorsed by the Democrats

Ayer's Hair Vigor

CORDIALLY INDORSED.

RESTORES Natural Growth OF THE HAIR —WHEN— ALL OTHER Dressings FAIL.

"I can cordially indorse Ayer's Hair Vigor, as one of the best preparations for the hair. When I began using Ayer's Hair Vigor, all the front part of my head about half of it—was bald. The use of only two bottles restored a natural growth, which still continues as in my youth I tried several other dressings, but they all failed. Ayer's Hair Vigor is the best."—Mrs. J. C. Colorado Springs Exchange.

Colorado Springs, Sept. 20—Through the amount of business transacted on 'change at the morning call was considerably better than on Wednesday, not very much can be said in its favor. Mollie Gibson started out strong at $1.25 bid, with $1.35 asked. At one time it looked as though there would be some trading at $1.30 but it fell through and closed at $1.25 bid with none offered. A. J. stays at 6¢ bid, and Work at 2. In spite of the strike in the Anaconda that stock remains listless and can be purchased at 21½. Mt. Rosa is a trifle stronger, also Gold and Globe. Buyers and sellers of Consolidated and Pharmacist do not seem able to get together in prices, hence the trading in them is light. A couple of thousand Franklin changed hands at $7 per 1000 and closed at $6 50 bid.

It now seems to be a foregone conclusion that the afternoon's business shall be heavier than the morning's. It was so at any rate to-day, when some 16,350 shares were sold, Mollie Gibson was again to the fore both as to number of sales and price. A small block went at $1.27½, but larger ones fetched $1 30. Argentum J. went at 6¢, and Alamo at 1¼. The first sale of Ingham was made during the afternoon, and changed hands at 4. Anaconda still continued weak, just as though no strike had been made in the property. Pharmacist sold at 7@7½, and once again closed strong at 7. Bidding for Work at 2¼ and for Consolidated at 1½ continues as active as ever.

Excepting in Union, of which 23,500 shares were sold, but little business was done off board yesterday. In spite of a more flattering outlook late on Wednesday, Union still continued weak yesterday, and was moving around in large blocks.

A Light Day.

Special to The Gazette.

Denver, Sept. 20.—This morning was a record one for light receipts at the local mint, it being the lightest this year and is a curious contrast to the best on record only a few days ago. The heaviest deposit to-day came from the Suffolk Gold Mining company at Ophir. It weighed 238 ounces. There were also three other small ones from San Miguel county. Other deposits came from Clear Creek, 1; Lake, 1; Summit, 1, Park, 3, and San Juan, 1.

The Denver Pit.

Special to The Gazette:

Denver, Sept. 20—The market here to-day was very strong, and a good deal of business was done. Alamo and Bangkok, Mollie Gibson and Mt. Rosa are all stronger, but there is an exception with Bushwhacker, which is a little off. Below are given the official sales and quotations of the day:

Alamo, 1¾@1¾, 2000; Anaconda 21@21½, 100; Aola 1@1¼; Argentum J. 6@6, 200; Bankers 1¾@2, 1000, Bangkok 6½@7; Big Six 6¼@6½; Bushwhacker 8¾@10; Calumet 15@17½, 500; Creede and Cripple Creek 1¾@1¾, 1000, Fannie Rawlings 9½@10, 200; Golden Dale $1 50@$1.75 per 1000,

Stocks in good demand yesterday at the following prices were:

Mollie Gibson @	1 30
Argentum @	65
Pharmacist @	07
Isabella @	12½

Current News.

Pharmacist, Mollie, Work and Consolidated are all strong.

The next test that Dr. Bartlett will make will be on ore from the Elkton and from a claim at East Beaver.

By a typographical error in our special from Cripple Creek yesterday, the assay from the Lincoln was stated to be $10 to the ton. It should have been $400.

Nearly 50,000 shares of Tirasca Gold Mining Company stock changed hands yesterday. The company has three valuable claims in the Front Range camp.

The Free Coinage Company are hoisting some good looking ore from their Rising Sun lode, which lies next to and parallel with the Burns lode, and upon part of which the town of Altman stands.

The Union directors should at once have that company listed with the exchange. This would moderate the bull and bear movements on the stock and give it the good standing that it ought to have.

The Enterprise company has leased the south half of their Morning Star lode. The lessees have agreed to run an open cut, as deep as bed-rock, right across the claim and in this manner it is hoped to cut a vein.

A clean up after a week's trial run of the machinery operated on the placers northwest of Cripple Creek, gives returns beyond those anticipated by the owners. More machines will be added to the one now in use.

The Blue Bird mine, one of the oldest locations on Bull hill, is to resume operations under entirely new management in about 30 days. A gentleman who has given the property careful attention from the day it was first opened will be in charge.

Mr. C. F. Kjellander, the busy stock broker, has recently added another branch to his business, it is that of insurance, and he will be glad to see all friends who wish to do business in that line. What with stock broking, real estate, loans and insurance, Mr. Kjellander is kept hustling.

Two brokers made a wager yesterday as follows: The one (who holds a high official position on the board) bet the other one, a new $5 hat that Mollie Gibson would touch $2 within 60 days. The "one" mentioned last will win the wager, if our prognosticator's information and judgment in the matter is not askew.—(Record.

Dr. Bartlett, has recently made tests with his process on some of the most refractory ores in camp, including the C. O. D. Raven, Buena Vista, Summit and Ingham. As has been stated before, the charges are only $3 per ton, and a very conservative estimate will guarantee a saving of 70 per cent on assay value. A large plant is to be put up at Gillett, and will undoubtedly prove a great success.

The Front Range company have been pushing their tunnel in vigorously and expect to cut the main vein, which has been opened up 250 feet above, any time now. The miners say that the rock is very hard in character and has been getting so right along. It makes progress very slow but is looked upon as a good sign as it is almost sure they are now in one of the walls of the vein, for all the rest of the tunnel has been particularly easy drilling and shooting.

The new strike in the Anaconda which was first made public in these columns yesterday, has been officially verified. The vein was first found in an open cut and from there a shaft was sunk 40 feet and then a drift run and the vein again encountered, this time well in place and between walls. This same vein has also been encountered in the upper tunnel about 160 feet below the surface, and now a drift from the long tunnel will be run and this will cut it at great depth.

The following adverse suits were filed yesterday: W. E. Smiley vs. the Jefferson Mining Company, the Clara D. adversing the Mattie L.; Chas. A. Bower vs. Atel Johnson, et al., the Virginia Boy vs. the Veteran; Charles G. Bower vs. Atel Johnson, et al.; the Emma Palmer lode vs. the Veteran; Roswell H. Palmer, et al, vs. James Gaston; the Christmas Bell vs. the Independence lode; the Keystone M. and M. Company vs. the Elmira M. and M. Company; the Alfalfa vs. the Little Cady and Seattle.

Manager Dickey is rapidly getting the Morning Star in shape for a big producer. A lot of ore he took out in sinking an experimental shaft was sent to the Colorado Springs mill where it returns better than $50 to the ton on the plates. This first shaft was sunk near the side line of the claim and now another one, which is intended for the working shaft, is being sunk 150 feet away. They have the same vein and the same values; so it will be seen that the lessees have, at any rate, 150 feet of drifting ground and goodness knows how much more. The vein was originally found by some of the most persevering and scientific prospecting that has been done in Cripple Creek.

Bushwhacker stock has gone up wonderfully in price lately. The latter from the Aspen Sun may throw some light on the subject: "The Bushwhacker has resumed operations extensively. It lies next to the Little Annie, which adjoins the Smuggler, which in turn is side by side with the Mollie Gibson. All of these other properties have wonderful ore in some of their workings, and the only reason that Bushwhacker has been behind them is the fact that it is merely a prospect compared with the Smuggler and Mollie Gibson. Charley Burns, who is perhaps as well posted on Aspen as anyone, having operated there for years, says the late find in the Bushwhacker is as big as anything yet found in the camp."

Some Real Estate Bargains.

Comparatively small, modern houses in the north part of town are scarce. We have one that if it is sold within a week we will sell at $200 to $300 under actual value. It has six rooms, bath, sewer connection, sanitary plumbing, cellar, hot and cold water, is wired for electric lights and piped for furnace. It can be had now for $3400 and only $1000 cash required.

A modern 8 room house for $1100.

There is money in building houses. We have 95x100 feet, corner on an alley on one of the best streets, that we offer at less than value. Two good houses can be built on it.

We do not believe it is good business policy for a man to carry his entire fortune in one line of investments. If your money is all invested in real estate, we think it would be to your advantage to get part of it into Cripple Creek gold mining stocks; and if you have it all in stocks now it would pay you to convert part of it into solid real estate. A specialty of our business is trading real estate for mining stocks. We have several good residences, some business property, and some vacant lots, that we will trade for stocks. We also have a good line of stocks to trade for real estate. The kind of stocks you get will be governed by the kind of property you have.

In Pueblo, on about the best street on the mesa, we have a 2½ story, cut-stone mansion, finished in the best style, modern in every particular, that we will price about $5000 less than real intrinsic value and trade for mining stocks. Mining operators from over the range, who want to live on this side of the mountains and do not care for any particular town, can get a good home in this property, and get it away under value. Such a house would have great value even if it were built on a ranch.

THE BULLS TOSSED THE BEARS WITH CHICAGO GAS.

Sugar Moved up and Railways were Firm Crop Reports Favor the Bears at Chicago—The Cincinnati Price Current on Crop Damage.

NewYork, Sept. 20.—Money on call has been easy at 1 per cent. Prime mercantile paper, 4@4½ per cent. Bar silver 53⅝.

The important movements in the stock market to-day were the sharp rise and activity in Chicago Gas and American Sugar. Chicago Gas has been sold of late on rumors that something unfavorable was about to develop in the property. Unfortunately for the sellers of the stock on this early information the wires between the city and Chicago where the suit was brought worked badly yesterday and the announcement of the Levin litigation was not received here until after the close of business. This gave the friends of the corporation a chance to get together and prepare for the bear onslaught. Consequently they were quite ready for the shorts this morning. The bears started off by forcing the stock down to 91¼, but their advantage was short-lived and after a first hour they were compelled to act on the defensive throughout. All day long they tried to cover, but as soon as buying orders were put on the board the price was lifted until finally it sold at 71¾ and closed at the top notch, a gain of 3¾ for the day. Judging from the course of the stock, the insiders are not very much alarmed over the Levin suit.

Sugar declined ¼ to 95¼ at the opening, but the punishment meted out to the bears in Chicago Gas alarmed the shorts in Sugar and in the late trading there was some heavy buying of stock put out early in the week. The price in consequence rose to 97¼. American Tobacco jumped 2¼ to 102, and U. S. Leather preferred 1½ to 61.

The railway list after a slight decline at the opening displayed more firmness. St. Paul, Louisville and Nashville, Burlington, Northwestern, Rock Island, Reading and Western Union appeared to be the best in demand. The inactive stocks, Minnesota and St. Louis preferred, (first assessment paid) advanced 1½ to 28½, and Long Island Traction fell ½ to 11¾@12½. The market closed firm with the active railway stock ⅛ to ½ per cent. higher on the day. Sugar gained 1¼, and Chicago Gas 3¾ per cent. Total sales were 180,473 shares, including 17,800 Sugar, 41,200 Chicago Gas, 13,000 St. Paul and 12,900 Burlington. The bond market was higher. Sales were $826,000.

CHICAGO GRAIN.

News of the Day Was All Against the Bulls.

Chicago, Sept. 20.—Trading in the wheat market was fairly active to-day until noon, when it became exceedingly dull, continuing so to the close. The range for the day was narrow being confined to half a cent. The market started weak on lower cables, large receipts in the Northwest and in sympathy with the continued weakness in corn. The news of the day were all against the "bulls." The Cincinnati Price Current while confirming the large feeding of wheat that was going on said that the fall seeding was progressing favorably and that later corn reports indicated that the reported damage to the crop had been exaggerated. Cables were quite weak, most of them stating, owing to American advices. There was a pronounced selling fever, and a great deal of wheat was sold by commission houses for "long" account. Subsequently the market held steady at the decline on good covering by "shorts." Receipts here were small, 123 cars, 12 less than estimated, while in the Northwest they were large, 611 cars arriving. On the corresponding day last year 683 cars arrived at Minneapolis and Duluth. Exports were fair at 366,327 bushels, including wheat and flour. Continental cables were all lower. Withdrawals from store were 56,495 bushels. Towards the close prices became more depressed on the rather large estimated receipts for tomorrow and the weakness in corn, but the close was steady on good covering by "shorts." December opened at 55¼@55⅝, sold between 55⅝ and 5⅞, closing at 55⅝—½ cent lower than yesterday. Estimated receipts for to-morrow 200 cars.

Corn—The bears had everything in their favor in the corn market this morning. The receipts were larger than expected, the other grain markets were easier, cables were lower and the Cincinnati Price Current's report indicated that the damage to the crop was less than had been reported. Traders were apparently of the opinion that corn was too high, as it compared with the other markets, and when the market opened, the liquidation of "long" corn was continued, with the result that opening price was about half a cent below yesterday's close. The market was held fairly steady at the decline on buying against "puts." Receipts exceeded estimated, by 20 cars, 390 arriving. Liverpool was 6d lower. The withdrawals from store were 218,149 bushels. Exports were light at 10,800 bushels. The weakness became more pronounced on free selling, but the country holders and the comparatively large prices reacted on good covering by the "shorts," and the close was fairly steady at ¼ cents advance over the lowest figure of the day. May opened at 52⅞@52½, sold between 52⅞ and 52, closing at 52¼—¾@⅞ cent lower than yesterday. Estimated receipts for to-morrow 500 cars.

DEFECTIVE EYESIGHT,

In youth or age, should be scientifically fitted with lenses. The rapid loss of eyesight in age can very often be traced to the neglect of the proper care of the eyes in youth, and cheap, poorly-fitted lenses. Errors of eyesight develop most rapidly during school life and should be corrected by accurately-fitted lenses, no matter what the age.

Our optical department is in charge of a graduate, in both the scientific adjustment of lenses and their manufacture, hence a perfect fit of glasses, from $1 upwards.

Office hours from 9 to 12 a. m., 1 to 5 p. m. Special lenses ground to order. Consultation free.
